MID-YEAR

Six months into 2025, we have helped thousands make more strategic climate decisions.

HOW OUR STRATEGY IS AFFECTING REAL CHANGE IN 2025

Redirecting investment to where it matters

In Indonesia, we trained International Finance Corporation teams to embed climate insights across investment advisory practices, steering private funds towards climate-

positive projects.

Advancing climate resiliency in middle income countries

In Peru, we helped leaders of the Cusco Regional Water & Environmental Protection Divisions begin integrating En-ROADS as a tool to test climate assumptions.

Climate Interactive helps us explore systemslevel trade-offs and synergies—and strengthen the climate intelligence we bring to clients."

> — Cindy Helfer Berget, Global Practice Senior Manager, Climate & Environment, Dalberg Advisors

Shaping equitable energy transition

In the Netherlands, we worked with leaders in energy, finance, and national policy to strengthen transition

strategies, focusing on how decisions affect vulnerable communities.

Climate Interactive's powerful tools make climate policy levers clear. I thoroughly recommend them for all risk and finance professionals."

— Jo Paisley, President, Global Association of Risk Professionals Institute

DELIVERING INSIGHTS, DRIVING EFFECTIVE ACTION

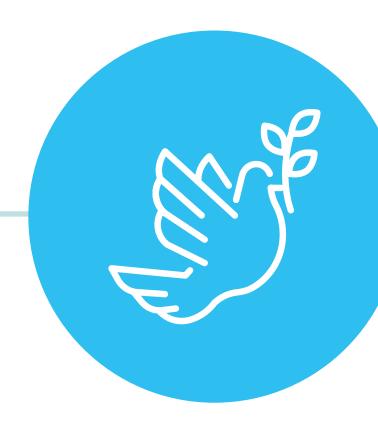

Director of Programs Ellie Johnston explored the prospect of prosperity post-fossil fuels at the 2025 Salzburg Global Policy Dialogue on Just Energy Transitions.

In April, Global Association of Risk Professionals highlighted our En-ROADS Simulator as a top climate risk assessment tool.

In June, researchers showed that En-ROADS can be helpful in facilitating peace.

In partnership with American Public Health Association and the Medical Society Consortium on Climate and Health, Executive Director Andrew Jones helped public health leaders unpack climate-health solutions earlier this year.

EQUIPPING LEADERS

We help leaders drive effective and equitable climate action.
